Strategy Summary

Outsourced distribution for
outstanding investment strategies

Disclaimer:

Boutique Capital Partners Limited (FRN 1027595) (“BCP”) is an appointed representative of Thornbridge Investment Management LLP (FRN 713859), which is authorised and regulated by the Financial Conduct Authority and provides Distribution Oversight to BCP who is acting as a Distributor and is responsible for the oversight of all distribution arrangement for the sub-funds or strategies it promotes. For professional investor use only. BCP is appointed by River Road Asset Management, LLC (“River Road”) to solicit clients or investors to be a client of River Road. BCP is not a current client or investor of River Road. River Road will pay (or procure to be paid) cash compensation to BCP for the solicitation services BCP provides. BCP, due to such compensation, has an incentive to recommend River Road and its strategies, resulting in a material conflict of interest. For the services provided by BCP, River Road will pay (or procure to be paid) to BCP a percentage of all net investment advisory fees received by the River Road, which ranges from 20% to 33% depending on the investment vehicle, amount of net revenue to RRAM, and other factors. The fee payable to BCP does not impact or increase the investment management fees charged by River Road to clients, as the fee paid to BCP will be deducted from the investment management fee paid to River Road. No officer, director, or employee of BCP is employed by River Road and River Road and BCP are not affiliates. BCP will not have any involvement in investment decisions for client accounts. River Road’s Form ADV Part 2A disclosures can be found here: <https://www.riverroadam.com/resources>.

River Road Asset Management LLC is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group Inc. Affiliated Managers Group Inc., AMG Funds, and other AMG entities are affiliates of River Road Asset Management LLC. Registration of an investment adviser does not imply a certain level of skill or training.

River Road: Institutional, Absolute Value® equity manager

- Based in Louisville, Kentucky, USA
- Founded 2005; +27 year team history
- 46 associates; 17 investment professionals; 15 shareholders
- Affiliate of AMG (Affiliated Managers Group) since 2014
- \$11.46 B in total firm assets

Total assets combine River Road's (1) total firm assets (as defined by GIPS®) and (2) advisory-only assets (no control over implementation of investment decisions and no trading authority). Total assets are supplemental information. Advisory-only assets currently reported on a one-month lag. However, different reporting methodologies were used historically. As of September 30, 2025, \$2.00 B of total assets are advisory-only assets invested in the DAV (\$1.37 B), SMID (\$354 MM), LCVS (\$126 MM), SCV (\$94 MM), FAV (\$53 MM), and MCV (\$0.20 MM) strategies.

Absolute Value® Philosophy

The objective of River Road's Absolute Value® approach is to generate attractive, sustainable returns over the long term, with an emphasis on minimizing downside portfolio risk.

A Focus on Excellent Companies Trading at Compelling Prices

Seeking well-managed, financially strong companies that generate predictable and sustainable cash flows and trade at attractive discounts, rather than challenged businesses trading at deep discounts or overvalued businesses that are only cheap relative to their higher-priced peers

Bottom-up Portfolio Construction

Emphasizing bottom-up portfolio construction based on River Road's specific Absolute Value® investment criteria

A Focus on Less Efficient Areas of the Equity Market

Seeking less efficient areas of the market, including smaller cap companies, companies whose shares are temporarily out of favor, and companies that are not yet promoted by Wall Street analysts

Risk Aversion

Employing a balanced approach to diversification and a structured sell discipline that seeks to reduce portfolio volatility and the risk of permanent loss of capital

Strategy Overview

A concentrated, highly active large cap value strategy focused on high conviction stocks

Inception

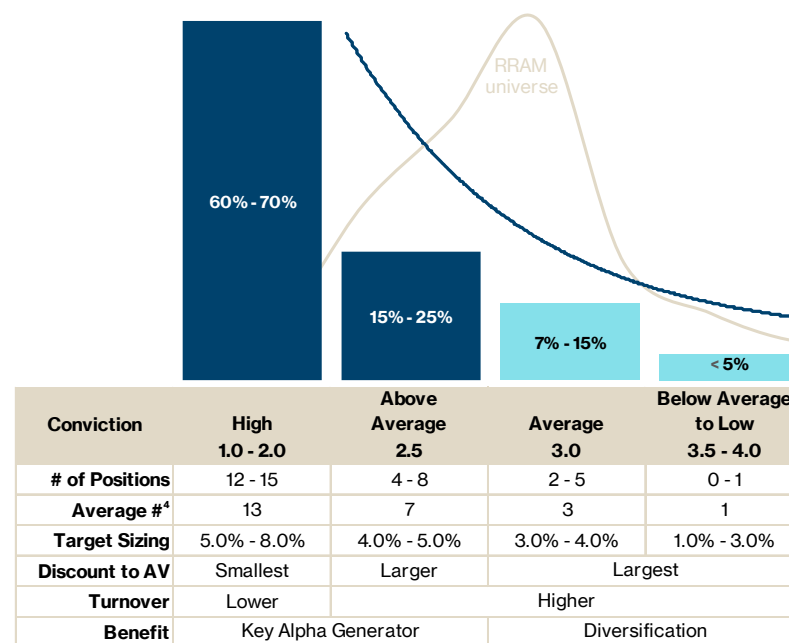

- Launched November 1, 2014
- \$2.04 B in total strategy assets

Objectives

- Outperform Russell 1000 Value by +200 to +400 bps (gross of fees) annualized over a market cycle
- Achieve performance in a manner that is consistent with established style and risk expectations

Guidelines

- 20 - 30 positions¹
- Market cap > \$3 B at time of initial purchase²
- Cash ≤ 5%³

Total assets combine River Road's (1) total firm assets (as defined by GIPS®) and (2) advisory-only assets (no control over implementation of investment decisions and no trading authority). Total assets are supplemental information. See total assets disclosure to the left. Unless otherwise noted, information based on a representative portfolio within the strategy. Investment guidelines (such as market cap, number of holdings, concentration limits, etc.) are working policies and, as such, may vary depending on market conditions and other factors and are subject to change without notification. At the time of a new account funding, positioning is determined at the portfolio manager's discretion and may include purchases/positioning outside of stated limits based on various factors. ¹The actual number of holdings is at the portfolio manager's discretion and may be outside of the target range for any length of time. ²Additional shares may be purchased below this minimum. ³May be exceeded to facilitate meeting settlements, managing account withdrawals or contributions, or otherwise at portfolio manager's discretion. ⁴Provided beginning 2021. Chart/table illustrates typical ranges.

Past performance is no guarantee of future results. There is a risk that invested capital may be lost. Performance is shown gross and net of fees. Inception date: November 1, 2014. ¹November 1, 2014 through December 31, 2014. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group. Unless otherwise noted, performance provided for periods greater than one year is annualized.

Characteristics

Characteristics are shown gross of fees and do not reflect the deduction of all fees and expenses that a client has paid or would have paid. Refer to the composite gross and net performance to understand the overall effect of fees. Information is based on a representative portfolio within the strategy. Unless otherwise noted, share-related characteristics are provided by FactSet. Portfolio and index characteristics are based on companies' most recent filings as of this report date (values for many companies may be as of the prior period). EBITDA: Excludes banks, thrifts, and insurers. Long-term growth estimates: Based on ordinary shares for all ADR securities held. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group. All representative portfolio information is supplemental to the composite presentation.

Compliance Statement: River Road Asset Management, LLC ("RRAM") claims compliance with the Global Investment Performance Standards (GIPS®). A GIPS Report is available upon request by contacting RRAMCompliance@riverroadam.com. **Composite Description:** The Large Cap Value Select composite contains fully discretionary accounts that seek long-term capital appreciation by investing primarily in 20 to 30 equity securities that trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value® approach. The composite may also be invested in Real Estate Investment Trusts (REITs), publicly traded partnerships, investment companies, convertible securities, and foreign stocks. Prior to September 30, 2020, the composite was known as the Select Value composite. **Benchmark Description:** The official benchmark for the composite is the Russell 1000 Value index. **Performance and Fees:** For all composites, the U.S. dollar is the currency used to express performance and includes the reinvestment of income. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. All composite performance is after the deduction of trading costs. Composite performance may differ materially from the Index as the composite only invests in a subset of the securities contained in the Index and also invests in securities not contained in the Index. Net of fee performance is calculated using actual management fees. For periods including non-fee paying accounts, net is calculated for those accounts by applying the highest fee schedule effective at that time. **Trademark:** GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. **Representative Portfolios:** Where indicated, the information presented is based on a representative portfolio. If no single representative portfolio is available to represent the strategy since inception, different representative portfolios and/or the composite are used for different periods to create a continuous representative portfolio. The representative portfolio is selected by the firm as a representative account that is deemed to best represent this management style using a pre-defined, objective set of criteria. All representative portfolio data is shown as supplemental information to the composite presentation. Each client portfolio is individually managed and may vary from the information shown for the representative portfolio.

5 YR Risk Stats

Risk statistics are shown gross of fees and do not reflect the deduction of all fees and expenses that a client has paid or would have paid. Refer to the composite gross and net performance to understand the overall effect of fees. Active share is based on a representative portfolio within the strategy versus the Russell 1000 Value. Sortino ratio: Calculated using the FTSE 3M Treasury Bill via FactSet. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group. All risk statistics and representative portfolio information are supplemental to the composite presentation.

	Differentiators	Benefits
Firm	+27 year history of successfully managing low volatility, capital appreciation strategies Deep culture that nurtures development, opportunity, innovation, and mutual respect	Demonstrated success AND style consistency over the very long term Lower turnover and greater job satisfaction; enhances ability to survive AND thrive over time
People	Team based but no PM hierarchy; analysts encouraged to dissent Decade of experience successfully shorting stocks and investing across the cap spectrum	Lowers individual bias yet avoids group think; enhances risk management and PM succession Enhances risk management and ability to effectively invest across the large cap spectrum
Philosophy	Proprietary Absolute Value® style Employed across the firm	Avoids the pitfalls of deep value and relative value styles; enhances consistency and lowers downside risk Supports idea sharing and informed challenge from across the organization
Portfolio Design	Concentrated, 20-30 holdings Index independent, not managed to the benchmark	Focus on highest conviction ideas increases batting average and skew Minimizes overlap with passive indices and active peers
Process	Active approach to position sizing; reject 'buy and hold' Avoid averaging down on losing positions ¹	Enhances risk management GREATLY enhances risk management, especially compared to other value managers
Performance	Consistent outperformance driven by stock selection Highly attractive upside AND downside capture	Alignment of philosophy and process with attractive results supports future success!

RRAM's investment approach, processes, and investment decisions will not always be profitable. RRAM's investment approach and style has and can be out of favor.

Investment guidelines (such as market cap, number of holdings, concentration limits, etc.) are working policies and, as such, may vary depending on market conditions and other factors and are subject to change without notification. ¹River Road allows for a 5% volatility tolerance when adjusting position sizes once a target position is established.
